

## Rules and Instructions of Test:

1. The test will be of 2 hour duration.
2. Join the test at least 15 minutes before the scheduled time.
3. Ensure you have a stable internet connection throughout the test.
4. The paper contains 4-5 Coding Questions.
5. Tab switching is not permitted, test will auto submit on tab switch
6. All submissions are run through a plagiarism detector. Any case of code plagiarism will disqualify both users from the contest.
7. Marks will be awarded based on how you optimized code and using that optimized code, how many test cases you have passed.
8. If you have any extension on your system, we are advised to remove these extensions.
9. Press F11/ Fn+F11 to have full screen view, after that refrain from pressing these keys again. Otherwise this will also be considered as a case that you were switching tabs in order to find solution.
10. If your laptop/desktop enters sleep mode, this is also considered as tab switching.
11. Make sure that all other apps, including WhatsApp, Telegram, and others, are turned off, as well as their notifications. Any notification can lead to tab switch.
12. Before beginning the test, please plug in your charger. During the test, connecting the charger is considered tab switching.
13. Please note that each tab switch has a penalty of 10 minutes. If a student switches tabs twice during the exam, their test will be automatically submitted.
14. If you see an alert "**You've already attempted and submitted the test**, "Press Ctrl+Shift+R".
15. Code copy-paste is not allowed.
16. No Student is allowed to leave Examination Hall until exam is over.
17. If giving exam from home then leaving the system is not allowed and talking during test is not allowed.
18. Camera must remain ON throughout the entire duration of the test and make sure your face is clearly visible at all times.
19. The test will be submitted automatically once your time is up.
20. Test Once submitted cannot be edited again. So please submit the test only if you are confident of your answers.
